

Autism is a journey ... don't take it alone. Adults on the Spectrum need support, friendship and camaraderie just like everyone else. We are here for you and can help you find activities and a group that will welcome you, just as you are.

GOALS:

- Connect adults living with Autism
- Share experiences and learn from others
- Have an accepting group to help you celebrate life's milestones and support you when things are tough

Looking for other great programs and events? Check out the offerings on our **Family Programs** flyer as well.
